Managers can review and approve time submitted by your employees using one of the following options:

1. From the **Team Time** icon - Use this option to select a group of employees and quickly approve their time.
2. From your Workday **Inbox** – Use this option to approve time for each employee separately.

### APPROVE TIME FROM TEAM TIME

1. On the Workday homepage, click the **Team Time** icon and then select **Review Time**. The **Review Time** page appears.

2. The **Date** field defaults to today. To approve a different day or pay period, change the date as needed.

3. The **Review my direct reports only** field is checked by default. If you want to see all employees rolling up to you, uncheck this box and select the employees under **Workers**.

4. Under **Show**, choose one of the options below:
   - **All Workers** – to see all employees regardless of whether they have approved, submitted or unsubmitted hours.
   - **Workers with Hours to Approve** – to see only employees who have submitted their hours and you need to approve time.

5. In **Period Schedule**, select **Bi Weekly**. You are **required** to select this field if you have exempt and non-exempt employees in your organization. Click **OK**.

6. On the **Review Time** page:
   - **Workers with Unsubmitted Hours** – to see employees who have not submitted their time. The manager can use this option to send reminder emails to their employees.
   - You can view your team’s time at a glance in the **Time Period Summary** table.
   - Use the **Previous Period** and **Next Period** buttons, as shown in the image above to navigate between periods.
   - You see yellow flags indicating employees with unsubmitted hours or no entered hours.
7. You can click an employee’s name to drill down to employee specific time data. Drill to check for missing time blocks, meal breaks and time off requests.

8. You can also use the arrows on the top right corner to navigate between employees.

9. Click **Approve** to approve the timecard viewed.

**Approve Multiple Employees Time Submitted**

1. Return to the **Review Time** page. Select the checkbox next to the employee name in the **Time Period Summary** table or check select all.

2. Click **Approve**.

**APPROVE TIME FROM INBOX**

1. Click your image on the top right corner of the Workday homepage and select **Inbox**.

2. Click the time entry item under the **Actions** tab.

3. Review the submitted time in the **Entries to Approve** section.

As you review, if you want to see more details of the time submitted by the employee, you may click the magnifying glass icon’s **Related Actions** in **Details** column.

4. Click **Approve**, **Send Back**, or **Close**.

Using **Close** will skip the task and leave the time entry item unapproved in the **Inbox**.

**What do I do if I find inconsistencies in submitted time?** Use **Send Back** to send back the submitted time item to the employee with a comment on the corrections required. We recommend that you do not use **Deny**.

**IMPORTANT:** When you approve time from the inbox, it will only approve the time worked. If an employee has time off requests for the pay period, it will appear as a separate inbox item that you need to approve. If you would like more information, please view the How to Approve Time Off job aid to see how to approve time off from the inbox.
