As a student, you will use the Time icon in Workday to enter time worked. Please follow your local practice as outlined by your department.

**Enter Time**

Follow the steps below to enter time on your timecard:

1. Once logged into Workday, from the **Home** page click on the **Menu** in the upper left-hand corner, then click on the **Time icon**.
2. Select **This Week**, **Last Week**, or **Select Week** as needed.
3. Click anywhere on the day to enter a time block.
4. Complete the required fields (as marked with a red asterisk) in the **Enter Time Box**.
A. **“Time Type” Field:** Time Type defaults to **Regular**, always use this unless directed by your payrep or supervisor.

B. **“In” Field:** Enter Time you started work.

C. **“Out” Field:** Enter Time you ended work.

D. **“Out Reason” Field:** Select **Out** for end of work or **Meal** if you are taking a meal break.

E. **“Position” Field:** It is important that you select the position you are entering the time block for.

If you work multiple jobs and need assistance figuring your position when entering time click the **My Multiple Jobs Information** link above the timecard.

4. Click **OK** to save your time entry.

5. You may need to enter multiple time blocks in a day depending on your shifts and breaks. Total hours update and display above the timecard as shown in the image below. The total hours also display above each day on the timecard.

6. Complete the timecard as you work for the entire week. Click **Submit** at the end of each week. This will send your time to your supervisor for review and approval. We recommend that you click **Submit ONCE** for each week in the biweekly pay period.

**IMPORTANT:** If you have critical errors on your timecard (for example, mismatched time punches) you will not be able to submit your timecard and get paid unless you correct the error on your timecard.
Edit Time Entered

All time types (Approved, Submitted, Not Submitted, and Denied) are correctable in the current pay period. If you need to make corrections to a previous pay period, please refer to the next section.

1. On the timecard, click the time block to be corrected.

2. In the Enter Time box:
   - To Edit: make corrections as necessary and click OK
   - To Delete: Click Delete to erase the entire time block. Click Delete again to confirm.

3. Click Submit at the end of the pay period.

Retro Pay Period (payroll already run)

You can make changes to a previous pay period (on which payroll has already been run) using the same instructions from the above section. You will see a message that says that the period is unlocked for retro adjustments and that you need to contact your manager or payrep to submit your time for approval.

Some IMPORTANT notes to remember:

- You have to wait for the pay period to be unlocked for edits (which is about three days after the pay period ends).
- You can enter time but cannot submit your time. It is your responsibility to let your payrep or manager know that you have added, changed or deleted time retroactively so that they can submit and approve your time.
- Retro edits can be processed 90 days in the past.
- If you are correcting time prior to 90 days, contact your manager or payrep.

Submitting Time for Approval

Employees should submit their timesheet to their manager or timekeeper for approval on a weekly basis.

1. Select the week in the pay period.

2. Review your weekly totals (upper right-hand corner). Click Submit, confirm the information, and then click Submit again.

Security Warning: When you are finished, click your name on the top right corner and click Sign Out.
